

Reading a Time Zone Map

The continental United States is divided into four time zones — Eastern Time, Central Time, Mountain Time, and Pacific Time. Look at the map. Notice that each time zone is one hour different from its neighboring zones. If you know the time in one time zone, you will be able to figure out the time in other zones.

Read the **time zone map** to complete the chart. The first entry has been done for you.

City	Time Zone	Time
Austin, Texas	Central	5:00 P.M.
Los Angeles, California		
Atlanta, Georgia		
Phoenix, Arizona
